

Premier Smoking Shelters

At a glance

- Choice of clear perspex or powder coated steel side a back panels
- Adjustable feet for on-site positioning
- More than 50% open area to allow rapid dispersal of cigarette fumes
- Suitable for up to nine people
- Parabolts for surface mounting included. Must be bolted to 250mm thick concrete for stability
- Site survey and installation service available

The Premier Smoking Shelter has a curved roof made from translucent polycarbonate panels, giving up to 97% UV protection. The contemporary design enables employers to provide a modern and aesthetically pleasing smoking area away from main entrances and exits
